LandCare For The Future

Co-funded by the
Erasmus+ Programme
of the European Union

16-18 July, 2018 Santiago de Compostela, Spain

Number of participants: 100

Web page: www.landcareforfuture.com/

OBJECTIVES

The overall objective of LANDCARE FOR THE FUTURE is to improve educational and training capacities in relation to ecological restoration. This is necessary to preserve our environment and also to fulfil the demands of an emerging labour market and create novel job opportunities.

The meeting aims to bring together **SPECIALISTS, EDUCATORS AND STUDENTS** on environment and education from around the world to share their different approaches and insights.

TYPES OF CONTRIBUTIONS

LANDCARE FOR THE FUTURE will consider examples of educational and training paths related to global environmental threats (wildfire, contamination of soils and water, degradation of wetland ecosystems, coastal degradation, and overexploitation of agricultural and forest landscapes). It will also address the application of innovative technologies and tools in education and good practices to improve employability and entrepreneurship skills.

PROGRAM

Monday, 16th of July, 2018
